

# TL28

series

## Product Segments

- **Ergo Motion**

TiMOTION's TL28 series lifting columns are specifically designed for use in ergonomic desks and work tables. Using multiple TL series lifting columns with compatible TC series control boxes and TH/TDH series controls, work surfaces can be controlled quietly and smoothly with synchronous movement. All Ergo Motion TC series control boxes have a less than 0.1W standby power option that reduces power consumption. Our wide range of columns offers customers the solutions they require to satisfy their project requirements. The TL28 has a two stage telescopic outer tube that is designed for a wide-top, narrow-bottom square appearance. One single TL28 can lift maximum 80KG. Various powder coating is available.

### General Features

Maximum load	800N in push
Maximum speed at full load	28mm/s (with 800N in a push condition)
Minimum installation dimension	645mm
Stroke	500mm
Dimension of outer tube (L*W)	70*70mm
Two stage outer tube with square appearance	
Wide top and narrow bottom configuration	

**Drawing**

Standard Dimensions  
(mm)

**Load and Speed**

CODE	Load (N)	Self Locking Force (N)	Typical Current (A)		Typical Speed (mm/s)	
	Push		No Load 32V DC	With Load 24V DC	No Load 32V DC	With Load 24V DC
<b>Motor Speed (5200RPM)</b>						
<b>A</b>	800	800	2.5	5.0	46.0	28.0

**Note**

- 1 This self-locking force level is reached only when a short circuit is applied on the terminals of the motor. All the TiMOTION control boxes have this feature built-in.
- 2 Parameters above are from tested average, please refer to approval drawing for final value.

Performance Data (24V DC Motor)
