Warranty Claims

If you believe your TiMOTION product is experiencing a defect covered under the terms of this warranty, please follow the steps outlined below to initiate a claim. This process ensures that your request is handled efficiently and in accordance with TiMOTION's warranty policies.

1. Notification of Defect

If a defect covered under this warranty is discovered during the applicable warranty period, you are required to notify TiMOTION in writing with a detailed description of the issue. This notification must occur within the warranty period.

2. Issue Verification

Once a customer complaint is received, TiMOTION may request the customer to perform initial troubleshooting steps to verify the reported issue.

3. Product Return and Shipping Responsibility

If TiMOTION requests the product to be returned, the product must then be shipped to TiMOTION, or to another address designated by TiMOTION, with all freight and insurance costs prepaid by the sender.

4. Evaluation and Resolution

Once your claim is received, and TiMOTION confirms that the product qualifies as a defect under the warranty (see "Warranty Conditions and Exclusions"), TiMOTION, at its sole discretion, will proceed with one of the following actions:

- ♦ Replace the defective product free of charge;
- ♦ Repair the defective product free of charge; or
- ♦ Provide a credit note equivalent to the value of the defective product.

If the product is replaced or repaired under warranty, TiMOTION will bear the cost of shipping the new or repaired product back to you.

TiMOTION will also reimburse the shipping cost for returning the defective product from your business location to TiMOTION, or to another designated address, provided that the shipping method and related costs were approved in writing by TiMOTION in advance.

5. If the Product Is Not Covered Under Warranty

If TiMOTION's failure analysis determines that the returned product is not defective under the warranty terms, the following options apply:

- ◆ TiMOTION may offer to repair the product at your request. Labor, material, and shipping costs will be quoted based on the evaluation, and your confirmation will be required prior to service. Repairs must be conducted exclusively by a TiMOTION authorized service or repair center.
- ◆ Alternatively, the product may be returned to you at your own cost and risk. TiMOTION also reserves the right to charge a fee for the time and materials used in analyzing the returned product.
